MIAMI ART WEEK DECEMBER 2-6, 2026 ·
MANA WYNWOOD

Each December, Miami becomes a meeting point for artists, collectors, galleries and curious eyes from around the world. At the center of Wynwood, two of the week's longest-running fairs return under one roof.

From December 2–6, Spectrum Miami and Red Dot Miami take over Mana Wynwood Convention Center, transforming more than 150,000 square feet into a sprawling showcase of contemporary art.

Together, the fairs bring more than 1,000 artists and 280 exhibitors into one space, drawing an anticipated audience of more than 40,000 throughout the week.

Spectrum, now entering its 16th year, brings an energetic mix of established and emerging voices to Miami. Its programming extends beyond traditional gallery presentations with Art Labs, curated Spotlight selections and the Discoveries Collection—works selected by the fair's curatorial team and priced at \$3,000 or less.

Red Dot Miami offers its own perspective on the contemporary market, creating a complementary experience that allows visitors to move between two distinct fairs without ever leaving Mana Wynwood.

But this year, the experience also reaches beyond collecting.

Jackson Health Foundation has been named the official nonprofit partner for 2026, connecting Miami Art Week with the community it calls home.

On December 3, “Jackson Health Day” will welcome patients, families, providers and staff from Holtz Children's Hospital for special programming and a guided experience of the fairs.
